

PRODUCT OVERVIEW

GUDY® MOUNTING FILMS

 NESCHEN
135 YEARS

WWW.NESCHEN.COM

Your professional mounting solution –

used by international galleries, sign makers, industrial manufacturers, and many others ...

For decades, Neschen's gudy® mounting films have been a high-quality solution for a variety of customer demands. From high-end mounting of photos and prints, to point-of-sale advertising or industrial applications: gudy® mounting films create outstanding results.

The gudy® portfolio is made for cold lamination, guaranteeing best results after laminating with a laminating machine or by hand.

A professional mounting and framing solution for photographs, fine art prints, Baryte photo papers, photo albums, or passepartouts. From face mountings of ink jet papers behind acrylic glass or the high-end adhesion of fine art papers to board materials, the gudy® range is the best choice for our customers' demands.

Discover permanent or non-permanent adhesives for a variety of short-term or long-term applications, such as installing **promotional posters on shop windows, advertising on exhibition booths, or creating self-adhesive boards.** gudy® sets no boundaries to your creativity.

Dimensionally stable, flexible, and aging-resistant, the gudy® portfolio is a reliable, high-quality choice for many applications. The water-based adhesive formulations, with low or high adhesive strength, are environmentally friendly and ideal for **industrial applications like die manufacturing, the automotive industry,** and much more.
